

## REMARKS

The Office Communication mailed 22 June 2010 required restriction between two groups that it characterized as:

Group I (claims 21-46) drawn to a reactor; and

Group II (claims 47-65) drawn to a method for producing the reinforced fluoropolymer plates.

The applicants provisionally elect Group I (claims 21-46) with traverse. In particular, dependent claims 60-65 are methods for producing a reactor as claimed in a claim in Group I and fluorination methods in which the reaction is performed in a reactor as claimed in a claim in Group I.

Consideration and allowance of the captioned application are requested.

Respectfully submitted,

12 August 2010
